

Harriston

Weeder

Eliminate problem
weeds in the row

Folds for transport right from the tractor seat

The Harriston Weeder is designed to get the weeds out of the row without damage to the crop. There is no other implement like it on the market. Built to save fuel & reduce chemical costs, Harriston Weeders are available in widths up to 67'. The hydraulic lift enables you to raise the entire machine on the ends of the field for easy clearance of trash. The parallel linkage springs allow each section to float with the ground. The Harriston Weeder works well for potatoes, sunflowers, beans, sugar beets, and other row crops. The adjustable gauge wheels may be set for the proper height & can be adjusted for any row width. Field-tested and proven, The Harriston Weeder will save you time and money. It's a smart investment!

Harriston Weeders — Save You Money

Harriston Weeder Model 620 Cultivator Mount attaches to any 4 x 6, 5 x 7, or 7 x 7 bar and is available in any width. The Model 620 combines the operations of cultivating and weeding into one operation saving you time and fuel.

Harriston Quality assures you years of service

The unique design of the weeder tooth enables it to vibrate and flex, pulling out weeds without damaging the crop.

Easily adjustable springs on the parallel linkage let you apply just the correct amount of pressure for field conditions. All teeth apply even pressure at all times.
